Management Discussions and Analysis forming part of Directors' Report for the year ended 31st March, 2016

Industry Structure and Development

Steel Castings Industry is considered to be the backbone of engineering industry serving Automotive, Agriculture, Mining and Earthmoving Equipment Industry and almost all downstream engineering industry. The FY 2015-16 was challenging with lower growth in industrial production mainly due to continuing high rate of inflation and depreciation of the rupee. These factors had an adverse impact on the economy resulting in lower GDP growth rate. Rising input costs, slow pace of industrial production, infrastructure development and the impact of global slowdown constrained the performance of the industry. In spite of such deficiencies, your company has done well business & earned good profit during the year.

Opportunities & threats

The global economy is reviving from slowdown and would offer better business opportunities in near future. Further, stable government placed in India would indicate positive growth signal for an Indian Industry though in near term some short term challenges. Likely increase in the Government spending towards various infrastructure sectors would create a rise in the demand in several sectors of the economy, of which the company would be a beneficiary. Planning Commission, Government of India, has also emphasized on infrastructure development to achieve GDP growth and this would open new opportunities for the business. The company has incurred major capital expenditure during previous financial years and enhanced new business in investment castings. This would cater demand raised in future.

The higher inflation rate resulting in higher interest rate and hike in commodity prices may adversely affect your Company's financial performance. The Company does not foresee any other threat, as Company is working with modern technology and continues on development of quality products as per the need of market to adverse the risk of slow down.

Outlook

India's growth story was, till recently, quite attractive in comparison with many other developed and developing economies. However, the nation's adverse fiscal deficit and negative current account balance call for some bold rectification measures from the Government. The Government would be focusing on consolidation of the economic recovery through expeditious clearance of existing projects, selective disinvestment and accelerated foreign direct investment through policy reforms. Also, Government's emphasis on infrastructure projects would raise demand from Construction & Mining Equipment Industry in the domestic market. Reforms in global economy indicate positive signal for overseas market. Overall, the market seems to be going on the sluggish pace for the next few months and would have positive note thereafter.

Risk and Concerns

The factors like slowdown in the infrastructure investment can lead to lower order intake. The other factor like power shortages and its cost; increase in labour cost and transportation cost due to petrol/diesel price increase etc. could contribute to inflation. The Company considers good corporate governance as a pre-requisite for meeting the needs and aspiration of its shareholders. The main risk to the Company which may arise is mainly due to Government policies and decisions, Fluctuations in prices of Raw materials, Exchange rate fluctuations, Industry demand etc.

Segment or Product wise Performance

The Company is operating in one segment known as Alloys Steel Castings in the range of static and centrifugal. The product wise comparison is not possible as every product is specific as per order and to the size, shape and alloy mix. Therefore, performance of the Company has to be seen in overall manner and the Company has done reasonably well in the present scenario.

Internal control System and their Adequacy

The Company has developed adequate internal control system commensurate to its size and business. The Company has appointed Internal Auditors, an outside independent agency to conduct the internal audit to ensure adequacy of internal control system, compliance of rules and regulations of the country and adherence to the management policies.

Financial Performance with respect to Operational Performance

The Company has registered a revenue of ₹ 3,047.73 Lacs and Profit before depreciation, amortization and tax of ₹ 224.42 Lacs. Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorization of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
